

**INTERFOR
USA GROUP, INC.**

Working with us could be your chance to enter a bigger market with better margins. There is so much government red tape associated with import/export of firearms that most dealers just give up and do not enter this lucrative market. We have organized our company to provide assistance in all aspects of export while removing the bureaucratic workload associated with this business.

Interfor USA Group, Inc. takes pride in providing personal attention to your needs. We charge a small fee independent of the number of firearms you import/export. A guide to how we operate is available on our website at www.interfor.us.

Additionally, we have a substantial firearms inventory and work with the six biggest firearms distributors in the country, so we can provide anything you need and there is no minimum order limits, hidden or unbearable paperwork fees.

If you are interested and want to discuss this matter first person contact us by phone or email.

We specialize in the import/export of firearms, parts & accessories and we are offering our service to small and medium size Firearms Dealers who do not have the resources necessary to import from or export to the USA. We have a gun shop in Italy and we service the rest of the European Union from there. We can export from the USA to any country that is approved by the State Department.

INTERFOR USA GROUP, INC.

Firearms

Interfor works with all the largest firearms manufacturers and distributors in the USA to provide firearms for export.

We insure that all firearms exported are in compliance with the gun laws of your country prior to shipment.

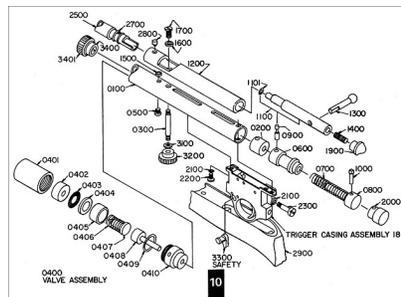

Parts

We are required to obtain a license to export parts just like exporting a firearm.

We keep a stock of parts for common firearms. We work with a couple of major parts dealers so we can normally supply your needs within a few days.

Accessories

Interfor recommends that you buy quality accessories. They may cost

a bit more to start with but you will be satisfied with the performance of quality accessories. Having said that, we will try to supply whatever brand you want.
